

Use your playdough to make 10 playdough balls and put them on the circles. Squash 3! How many are left?

$$10 - 3 =$$

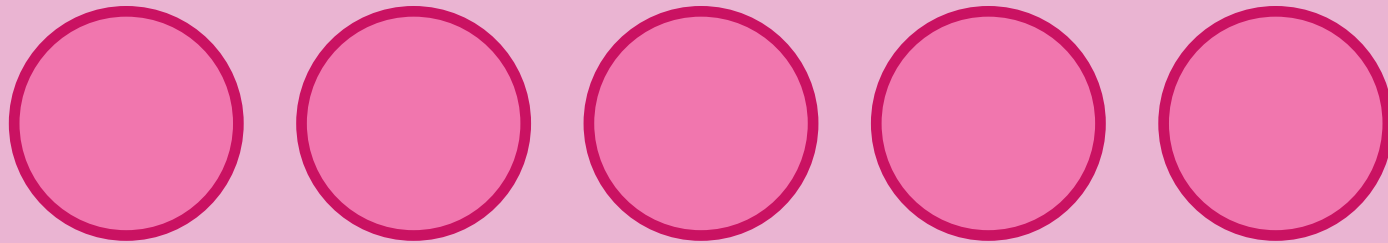

Use your playdough to make 8 playdough balls and put them on the circles. Squash 2! How many are left?

$$8 - 2 =$$

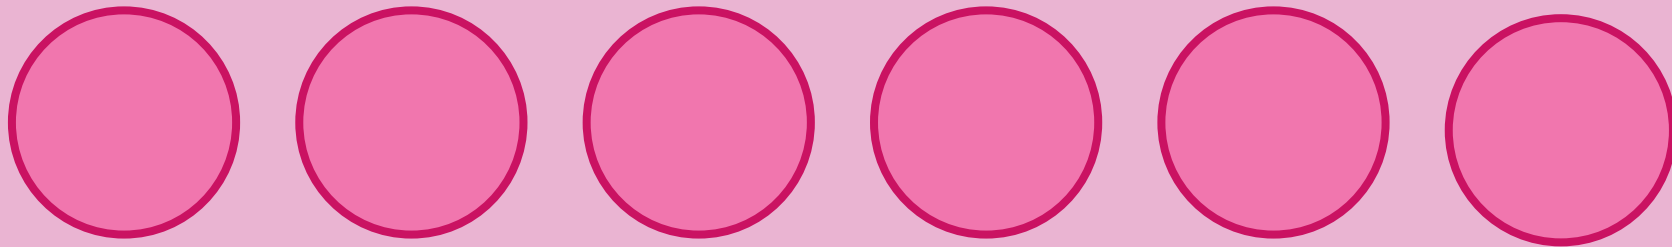

Use your playdough to make 5 playdough balls and put them on the circles. Squash 4! How many are left?

$$5 - 4 =$$

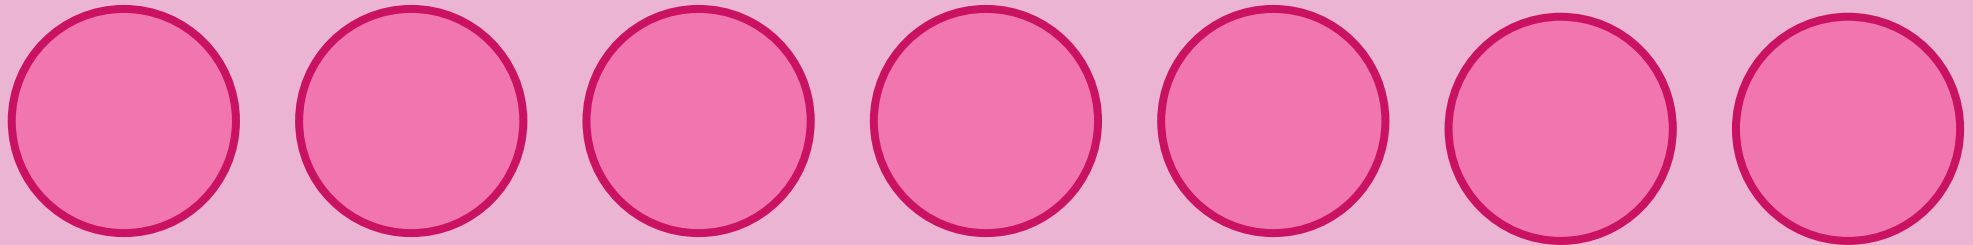

Use your playdough to make 6 playdough balls and put them on the circles. Squash 1! How many are left?

$$6 - 1 =$$

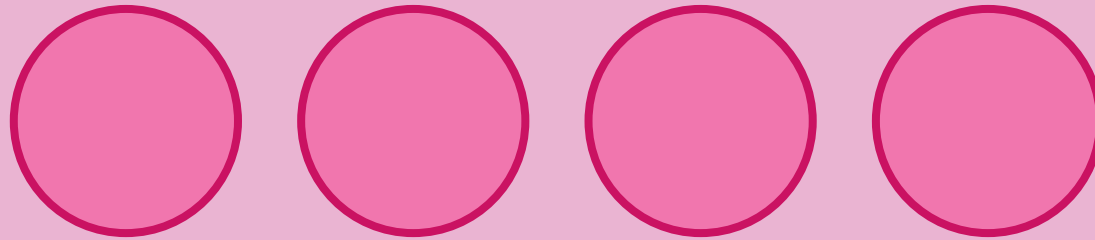

Use your playdough to make 7 playdough balls and put them on the circles. Squash 2! How many are left?

$$7 - 2 =$$

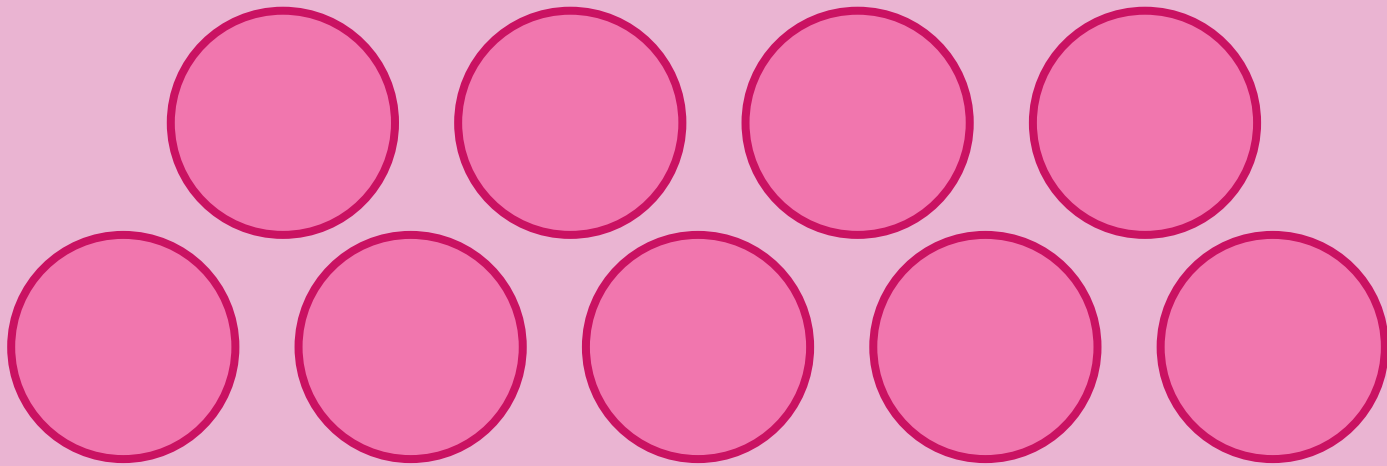

Use your playdough to make 4 playdough balls and put them on the circles. Squash 3! How many are left?

$$4 - 3 =$$

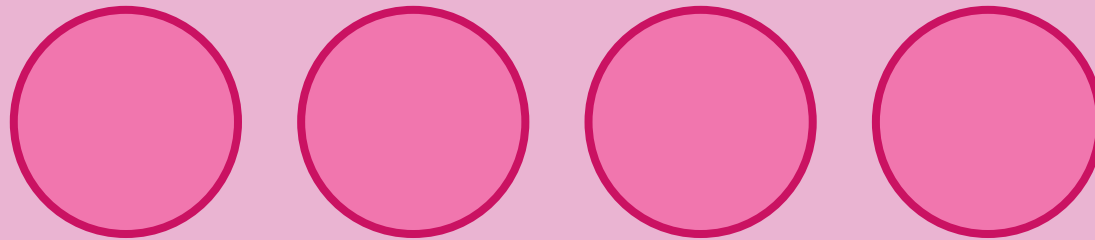

Use your playdough to make 9 playdough balls and put them on the circles. Squash 4! How many are left?

$$9 - 4 =$$

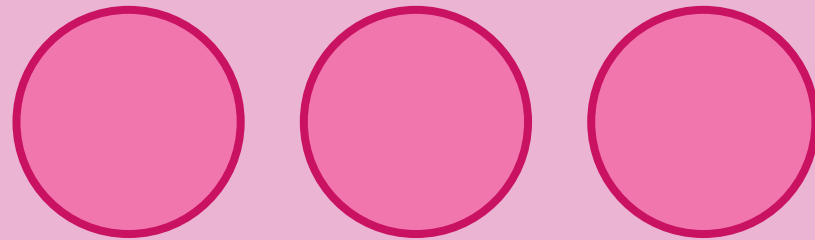

Use your playdough to make 4 playdough balls and put them on the circles. Squash 1! How many are left?

$$4 - 1 =$$

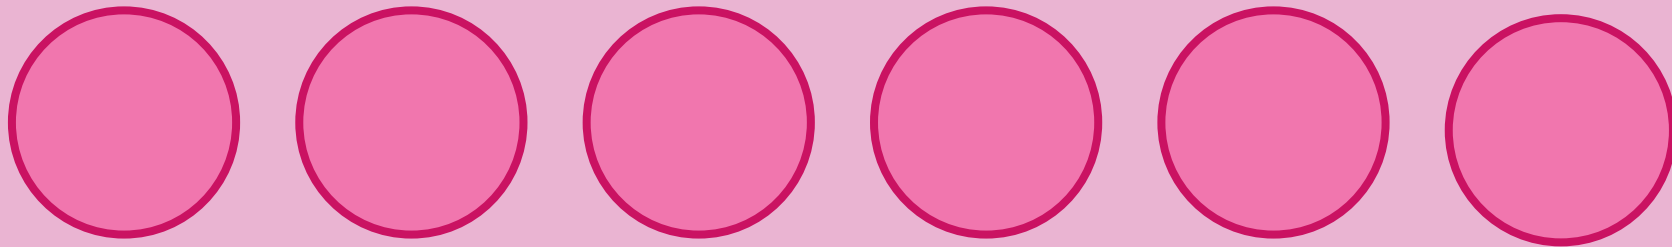

Use your playdough to make 3 playdough balls and put them on the circles. Squash 2! How many are left?

$$3 - 2 =$$

Use your playdough to make 6 playdough balls and put them on the circles. Squash 3! How many are left?

$$6 - 3 =$$
